ARLINGTON, VIRGINIA - Republican presidential candidate Dr. Ron Paul, an OB/GYN who has delivered over 4,000 babies, issued the following statement in support of state efforts to pass "Right to Life" amendments:

"The right of an innocent, unborn child to life is at the heart of the American ideals of liberty. My professional and legislative record demonstrates my strong commitment to this pro-life principle.

"Under our Constitution, the states have the duty to protect citizens against murder, and protecting the unborn from having their right to life violated is no exception.

"I find it unconscionable that the Supreme Court overrules states when they pass pro-life legislation. As president, I will fight to end this judicial tyranny.

"Many talk about being pro-life. In Congress, I am the lead sponsor of HR 2597 the 'Sanctity of Life Act' and a similar bill, HR 300 the 'We the People Act.' Both bills would negate the effect of *Roe v Wade* by removing the ability of federal courts to interfere with state legislation that protects life. My bills could pass by a simple majority vote and allow states such as Michigan and South Carolina to end abortion immediately.

"I challenge every candidate who claims to be pro life to support these bills to get the Supreme Court out of the life issue so states can quickly and constitutionally protect the unborn."
